**Alumni News letter**

## From the Principal' Desk

We at the Ramaiah College of Arts, Science and Commerce encourage and empower our students to be learners for life, think critically and be prolific members in this ever changing global environment. We do our best to train our students to make use of all their knowledge and skills that they have acquired during their learning process and be a responsible and self-reliant citizen.

It gives me great pleasure to know that here is yet another opportunity to meet all our Alumni who are here for their reunion with their old friends. This is the college where you have graduated. This Alumni Meet serves as a reason for all of you to reconnect with each other and also with your Alma Mater.

We are into our silver Jubilee Year, and it would have been highly impossible without your participation and contribution, for the institution to reach such great heights. We are enthusiastically waiting for your contribution to this institution. We would be happy if you can share your knowledge or your expertise with our students, thus contributing to build the future of our country.

Looking forward to meet you all....

## From the Convenor's Desk

Yet again we meet, on this Second Saturday of March, to go down the memory lane and relive all our memories. Yes friends, it's our 10<sup>th</sup> annual Alumni Meet and I am extremely happy to bring out this newsletter again. This serves as a platform to all our alumni to express their views and exhibit their creative writing talent. Though we hardly received any articles, when taken into account the number of alumni we have since twenty five years, we managed to make the best out of whatever we received.

Friends we are in our Silver jubilee year. We are eager to involve our alumni, who are part of our Journey through these twenty five years, in our Silver Jubilee Activities. I request all the alumni who are zealous and keen to participate in our activities, to intimate us the event you would like to be part of, and your convenient time. We would definitely like to organise a few events exclusively for you. Your views and suggestions are always welcome. You may contact the respective Heads of Departments or any of the faculty members you are in touch with. You may even contact me at the number given below. 9880614575. Mail id. padma\_eng@msrcasc.edu.in

I am grateful to the support and encouragement received from the management, Principal and other members of teaching fraternity.

### Alumni Committee.

### English Department

## DEPARTMENT OF BIOTECHNOLOGY & GENETICS

The department organized a guest lecture on “Growing Career Avenues in Clinical research Industry” for the IV sem. M.Sc. students on 20<sup>th</sup> August 2018 at BBA Seminar Hall. The talk was delivered by Mr. Chary V, Corporate Interface Manager, CLINI INDIA, Bengaluru. The students learnt about concepts of Clinical research and the career opportunities in the clinical industry.

Dr. Chary V delivering the lecture

Principal Dr. A Nagarathna handing the memento to Mr. Chary V

The department organized an Industrial training programme on “Mammalian Cell Culture” from 3<sup>rd</sup> September to 7<sup>th</sup> September 2018 at Genelon Institute of Life Science Pvt. Ltd. Yelahanka, Bengaluru, for the students of III semester M.Sc. Biotechnology. The students were trained in the basics of animal cell culture procedures and cytotoxic assays. They gained the skills to be employable in the industries and experience for their future research and academics.

III Sem. M.Sc. Biotechnology students at Genelon Institute of Life Science Pvt. Ltd. Yelahanka,

III Sem. M.Sc. Biotechnology students viewing the mammalian cells on the display screen at Genelon Institute of Life Science Pvt. Ltd. Yelahanka,

The department organized a guest lecture on "Current Trends & Career Prospects in Genomics" delivered by Dr. Anupam J Das, Founder & CEO, MolSys Pvt. Ltd., Bengaluru, on Friday 5<sup>th</sup> October 2018 at BBA Seminar Hall. The talk was organized for the PG students and they learnt about the career prospects in the field of genomics.

Dr. Anupam J Das, delivering the lecture

The department organized a guest lecture on "Big Lessons from Tiny Worms" delivered by Dr. Nagagireesh Bojanala, Dean of Sciences & Head of Research, RCASC, Bengaluru, on Wednesday 19<sup>th</sup> September 2018 at BBA Seminar Hall. The post Graduate life science students participated in the Seminar.

Dr. Nagagireesh Bojanala delivering the talk

The department organized a industrial/ research institutional visit as per the syllabi of the Bangalore University for the III Sem. M.Sc. Biotechnology students for nine days from 23<sup>rd</sup> September to 01<sup>st</sup> October 2018 to Pune, Goa and Udupi. The students learnt the recent trends in research and industry. They got a chance to see learn the various instruments and the job opportunity in industry and institutes.

Students at Central Coastal Research Agricultural Institute, Goa.

Students at Agharkar Research Institute, Pune, Maharashtra

Students at National Institute of Oceanography, Goa.

Students at Mapro Food Industry, Mahabaleshwar, Maharashtra.

The department organized a guest lecture on "Career Pathways in Life Sciences from Class Room to Job Desk" delivered by Dr. Debasish Kar, Faculty of Life & Allied Health Sciences, RUAS, Bengaluru on Wednesday 28<sup>th</sup> November 2018 at BBA Seminar Hall. The Post graduate life science students participated in the seminar and learnt about the various exams the students can take and the various opportunities after the PG course in the field of research and industry.

Dr. Debasish Kar delivering the lecture

## Department of Humanities organised a lecture on Suicide prevention

## Department of Humanities

Students visited Cadabam's a rehabilitation centre for substance abuse

Organised a Career Guidance program

## Activities conducted by Department of Commerce Extension Activity

On 23<sup>rd</sup> February students and Faculty of Department of Commerce visited an orphanage and served them good food

The poor children wer given clothes, Books and other essential material for them to pursue education

Department  
Conducted Orientation Program on Career Opportunities

Valued Added programs organised bythe Department of Commerce

## Department of Bio Technology Organised

A work Shop on Mushroom Culture

Students attending the Workshop

## Department of Management (MBA) organised a one day symposium

Department of management (MBA)  
Celebrated Gandhi Jayanti

Department of management (MBA)  
Celebrated Kannada Rajyotsava

Inter class Competitions organised by MBA

## **Golden Days at Ramaiah Arts Science and Commerce.**

One of the most interesting stages in life that gives you an opportunity to explore is the 'college phase.' Life at college is the time when the teenage ends and we all dive deep into the ocean of new beginnings and possibilities. This golden period better equips you for all the challenges you'll face in life and creates a strong foundation of knowledge.

My experience at Ramaiah College has taught me one fundamental thing – life is unpredictable. It might be good, it might be bad, it might be weird, and it might not interest you, but expect anything to happen. For example, you might have a wonderful job this moment, and be fired the very next moment. College life prepares you for all of this. It is a perfect blend of joy and hardships. You meet different people, you interact with them, you learn about their cultures and grow as a person. You will understand how to talk to different people, how to judge their behaviour, thus helping you with important life skills.

You learn to sit through a boring lecture; you try to cope up with the surprisingly strenuous syllabus, and you have the opportunity to learn from some great research minds. Academia, as they say, never lets you go free. People might try to motivate you by telling that you need to study only through your school years and chill during the college life, but that isn't true.

Another life lesson you will remember – the learning never ends. You find campus groups or student groups where you can explore your co-curricular skills along with many other students like you. You share common interests, and thus you share common ideas. Trust me, once you get into a good college, you will get an opportunity to be the artist you always wanted to be through probably a fine arts campus group. You could be that director, you could be that vocalist, you could be the dancer of your dreams – college is the Santa Claus that keeps on giving all these wonderful opportunities while you're in it. There are also campus festivals, which draw a lot of fun crowd from other colleges and let you show off your skills. You could also enjoy with the celebrities who are invited to perform, or even show off your technical prowess in a tech festival.

The life at college is a time when you can decide your career. It's a time of dreams and innumerable paths. You can work for a non-profit organization and even gain the satisfaction of being a humanitarian. The point is that you are free to try out these new things and no one is going to forcefully control the decisions you make. Every nook and corner of the college you'd find a peaceful spot full of natural surroundings, who's value you will only realize once you graduate from your campus. You will always remember the early morning fog, your hostel's adorable "puppy" or even your grumpy stationery shopkeeper.

So, remember that there will be moments that carry a lot of sentimental value and you can't help but miss those years later. The friendships you make in college life is the most important aspect. These people will give you strength and be your knights in shining armour all your life. The time you spend with your friends, playing Mafia, Poker, or arguing about any random topic, your regular lecture "bunking" to watch a new release of your favourite star, will always stay in your heart. Planning road trips, occasional adventure surges, and impulsive journeys—all these things make you more emotional when you bid adieu to the institution.

So, one fine day when you see pictures from the college of you and your friends having a good time, you'll definitely land up smiling silently. That's the beauty of college life. It stays with you long after you've climbed those ladders of success and forgotten the name of that cute crush you used to drool over

By  
Gauthamshanthakumar

## **My experience in Ramaiah**

Many people get asked different variations of the same question: "What has been your best experience in your college?" And even at that age, there are many joyful moments to consider-birthday parties, trips to the local amusement park, and bike riding. But often, it is not until your adult life that you go through most valuable events in our life. Personally though, I consider my time in college as my most valuable experience.

College is great for getting to know all types of people. When I become friends with other types of students, I actually learn a lot more about myself in the process. Additionally, I may have a lot more in common than I think.

First, my experience in college has given me a chance to sharpen my skills in my field of choice. There have been, and there will continue to be, many opportunities to learn more ways of improving my knowledge which I am truly thankful for. Because of this, I realized I still had a lot to learn despite what I thought; but this allows me to improve my skills more as I continue to attend school and also gives me more confidence in my area. And as a result, I know one day this valuable experience will help me in my search for another one-a rewarding career.

Believe it or not, lecturers are pretty cool people. They're smart, often experts in their fields and are willing to share all of that information with students. Additionally, a lot of lecturers have interesting things they are working on that pertains to their study.

In summary, my time in college has enriched my life in many ways. It has provided me with the necessary tools to enhance my skills more, taught me valuable knowledge about this diverse world and people and concepts in general and eventually will enable me to hopefully become more successful in life when I finally graduate and get my degree. It also has stressed to me the importance of thinking critically and asking questions in many situations. All these aspects of college have also made me more well-rounded as a person.

## **ADIEU**

Feeling nostalgic as I remember the first day of my college. I felt a bit uneasy, scared and nervous as it was a new place, new environment with no familiar people. Yet, somewhere in the heart I was happy and proud for this new beginning in life. How fast these three years passed by, it just feels yesterday that I was new to this place, and now I am surrounded by most amazing and wonderful people. Never in my dreams I had imagined that I would meet such good friends despite of language and culture differences. Shruthi, Salma and Arbiya thank you for being a true friend, for being there through my thick and thin, for tolerating me and my stupid jokes. I can't even imagine how boring my college life would be without you people.

My special gratitude to my teachers for constantly supporting me, believing in me and pushing me forward toward my goals. Thank you for all the valuable lessons which has helped me to become a better person. These three years has been a roller coaster ride but in the end it was all worth it. Life is full of memories; pleasant and unpleasant. Some of the memories are forgotten easily. But, there are some memories in our life which are always memorable as well as unforgettable. Some moments of life always glitter with unforgettable memories. They are ever green in mind. "Memories are the treasury and guardian of all the things." I will always cherish the moments and time spent in college. I cannot imagine how much I have changed with the time spent in college. Three years and I stand out as a completely different person today. First day in college and the last day in college are very important in one's life.

Wishing you all much joy and success as you begin a new chapter in your life. Our memories of yesterday will last a lifetime. We will take the best, forget the rest, and someday will find that these are the best of time.

Prava Subedi  
BBA

## **My College Experience**

Throughout my lifetime "college is the best experience of my life." I use to try and imagine what my first semester was going to be like based on what I had heard people talk about in the past. After my first semester at Ramaiah I realized that I couldn't fully understand what college was like until I experienced it for myself. My first couple of weeks at Ramaiah was rough and really tested my strength (mental and physical). I faced challenges and obstacles that I had never heard about in those past college experience conversations.

I can remember missing classes' attendance. In high school the teacher would constantly remind the students when certain assignments were due, but this was not the case in college. I learned that the hard way my first semester. Sometimes I forgot to turn in an assignment because I didn't properly read my syllabus. These were all new problems that could have easily let escalate without taking the proper actions. For the most part I was doing fairly well but a few of my grades began to plummet. I was losing the confidence in myself and started to wonder if going to college had been the best decision. The time had come for me to grow up and become an adult even I didn't feel the time was right. These factors were the eventually led to drastic improvement and success. After my first semester I learned how better manage my time, take advantage of campus resources and also how to organize myself better. These struggles also taught me that sometimes I try and rush through things instead of taking my time. I realized that one of my strong points is being able to really do well when my back is against the wall. Although I was unhappy while facing obstacles I am happy I experienced them. I had a good circle of friends without whom I would have never survived in Ramaiah. I thank all my faculty and friends who have been throughout these journey and guided me in a right way.

Thank you

Ikitha.T.S.

## **My Views on the place where I studied**

Colleges usually mean educational institutions, but they actually are places where you find your passion, identify what you are best at and help you understand yourself better. They are the places where a mere kid transforms himself into mature individual.

The beauty of the BBA department is, it treats students like kids so, I'd say I've seen a parent-children bond more than typical student-teacher bond. The department exactly knows how and where to pin down students with stringent rules while giving them freedom and relief from few unnecessary ones. Mr. Lakshmipathi Naidu (HOD), is one of the strongest men and great lead of the department. He keeps reminding about, how one shouldn't leave focus on things, how much ever busy they are. Of course his job keeps him occupied but he never fails to keep an eye on students, by saying students I mean each and every student. Mr. Nishanth Patil, He exactly knows how to befriend a student without giving them too much lenience. Mrs.Savitha.B.H, She is one of the sweetest beings of the department and is always there for her students in time of need. Mrs. Savitha.R, I know the beautiful heart of her thinking about bringing the best in every student, behind her strict behavior. Mrs.Prarthan, She is the coolest and one of the most friendly people. She is very hard on herself when it comes to teaching and making students learn. Mrs.Rekha, she might seem a little unsparing and stern but all she wants is the best for her

students and is always there to guide and improve students. Mrs. Supriya, utmost patient human being, I know for a fact that she'd never think twice about walking an extra mile for her students to learn each and everything they need to. Ms. Navya Bhanu, was very friendly, extremely into the concept of giving the best to the students at any cost. Miss. Harshini, exceptionally companionable, she has a special place in understanding students and knows how to exactly perfect.

I'm glad I'm given the opportunity to express my views and experiences. I will always be thankful to this college, my department and each and everyone who is a part of my journey in this college.

Thank you.

**Sahithi Reddy, BBA**

## **Does she need our protection**

Have we right to protect? Or  
Are we the ones who must change?  
Protected from the evils of the society and  
Prevented from finding happiness, she  
Yearns to be free.

What was she destined to? Was it'  
Only to be protected and  
Meant too be hidden in the shadows? Her  
Entire life, she spends caring and  
Nurturing her treasures.  
She might be weak but strength is not all  
This world needs.

Does she really need to protected? Or  
Are we the ones who ought to change?  
Yet we do what we think is right.

## **MY JOURNEY WITH RAMAIAH**

College life is a part of my life which relives in my memories till my breath, I don't remember days I remember moments. Especially RAMAIAH College which sculpted me in a prosperous way, my college is a renowned institution in Bangalore and the main thing I should not forget in my life time are my lecturers, if college is so well and effective it's all because of my lecturers without them nothing was possible for me as they supported me, thought me the right things, encouraged me, in need they were with me and they are the best teachers in my life. HOD Sir awesome, ultimate, unique and father like supporting attitude which I liked the most. I 'am so blessed to have you people in my life. My college has all kind of facilities needed for a student like good infrastructure, library, computer labs, good environment and ambiance. There are so many activities conducted like cultural, sports and educational events which is of great platform for the students to showcase their talents. I should have to tell this I had won first prize in rangoli competition and have got many certifications during my life with this college it is all because of my lecturers, friends and family. College is quite strict and free only for certain things, here again tells the high quality of molding students in good manner. We also experienced entertainment from our college as they had conducted trips and industrial trips were we had knowledge and entertainment at one slot.

Finally to tell my college was and is always a sacred place for me as it did not give only education but also has given lot of things which cannot be told in words, one thing can be said that if we do right things and take things in a positive way we will get good things and positive awards for this I have an example as my college was coming to an end we had graduation day which is the most awaited day for every student and I was surprised with "The Best Outgoing Student" of my batch this was so surprised and I felt so happy and proud that day if I had an opportunity I would have awarded all my lecturers, friends and my family for this to happen in my life. They are such a blessed and well-wishers of my life whatever I have done is secondary but what I did was recognized for this I am so thank full to all my lovely lecturers, friends for so many memories to spend rest of my life with and my family as my back support.

So from this finally I would say that I will miss my college and it will be alive forever and ever in my memory. I would thank each and every one from this college who are directly and indirectly part for this journey in this institution and supported us for this wonderful experience. I would also thank everyone on behalf of my friends and family, this will never end. THANK YOU RAMAIAH.

From,  
**Shruthi L.**  
**BBA Final Year**

## **Nostalgia**

I still remember the date when I attended my first bridge course class of one of the renowned college of Bangalore, my college, popularly known as M.S.Ramaiah college of arts science and commerce. Well it was the beginning of the month July 2015. I finished my 12<sup>th</sup> from west Bengal and suddenly made my mind and took admission in Ramaiah college for pursuing BBA. Everyone in my family was worried about me because they wondered how will I survive in this big city that too totally alone, will I be able to make any friends, will I be able to live by having the food available in my hostel....all these questions and many other flooded their mind. Then my struggle to survive in the college begun. Well I must say this, from the very first day I met few people who made me feel so comfortable and that gave a kick start to my journey.

I had a very enthusiastic group of faculty members who didn't just imparted knowledge and helped us in every way they could but also became very good friends with us. They are not the group of persons who only wanted us to score good, they wanted us to enjoy our college life but at the same time they taught us that we should have a balance in our life.

Being a Bengali girl I always wanted to be home during our biggest festival Durga Puja and I am very grateful to my HOD and other faculty members who always understood me and gave me permission to visit my home town. Actually I was searching an opportunity to address this because I really am grateful to them for allowing me every year.

Our faculty members actually acted like a protective shield around us, always trying to protect us from every minor to major problems. So slowly and steadily they somehow became such a person with whom we can feel free to share our problems and we had this strong belief that they are gonna solve our problem and much expectedly they did. In short they became our support system in the college. They tried their level best so that we don't feel we are outsiders here.

Now coming to those who are the biggest pillar or the reason that I could survive here. They are commonly known as FRIENDS. But after staying away from home and family I understood some of these friends are also called as family. Without these creatures no one can imagine how their college life would be.

There are no rules for selecting them. Friendship doesn't need clarification about caste, creed, religion, place of belonging etc. very unexpectedly we meet and somehow end up having a strong a strong bond among us.

I am blessed to have such human in my life. I met them here and as I have said earlier I do have strong bond with them. Other than the conventional definition that a friend is one who is your well wisher and who helps you when need them I got to know that they are the person who will never let you feel alone, they will help you even when you don't need them, they will always pull your leg and insults you but they can't tolerate the fact that someone else is putting you down, they are the person who will always guide you to do the right thing but wont practice the same in their life..jokes apart I have met few people here with whom even if I don't contact on a daily basis in future I know they will still be there me. They are the group of person with whom I can totally be myself.

New place, new people, new culture, all these thoughts were way out of my imagination but it is the present scenario of my life. And very surprisingly I am loving this phase of my life.

All these wouldn't have been possible without the decision of getting out of home getting admitted in this college. This college life has taught me a lot of things, few are- how to survive in new place, how to mix up with new people, how to adjust in any given situation and most importantly how to at least try to led a balanced life.

I will miss everything about this college- our cultural functions, our industrial tours, hanging out late in college even after our classes are over etc.

Lastly the vote of thanks to everyone who has given me such precious moments which I know I will cherish and share till the day I am capable of remembering things. Thank you to all my faculty members, to all my friends and to all those unaddressed persons who knowingly or unknowingly is a part of my college life has made my college life immortal for me.

## **WHERE THERE IS A WILL THERE IS A WAY**

Many of you might have heard about a famous proverb "WHERE THERE IS A WILL THERE IS A WAY " but wait.....Believe me this is just not a proverb if u will apply this in your real life u can shine like stars, He is what I experienced. Generally, All of us have a goal in life which we work to achieve; However, the final goal is achieved only by the people who have strong will power and work hard with complete dedication. Will power is necessary to create a way of surety of getting goal in life. Most of us do not succeed in life as they don't have strong determination and will towards achieving the goal.

I was appointed as Specialist in Via.com but I was not very happy with my role and responsibilities because I was well aware about my skills .My will was to handle a team and be a leader so I started finding ways for this rather than pretending that it is impossible . I started mingling with my senior manager and VP, They had a strong belief in me so they gave me a project and made me owner of that project ..... with my strong determination and god grace I completed that project successfully and now I am handling one more project along with 10 members, guiding them as leader, which makes me happy. This incident made me more strong and taught me that "WHERE THERE IS A WILL THERE IS A WAY "

I want to conclude here, but please remember one thing always in your life that Each one of us has the potential to do things we dream of. We just have to make a beginning with all the true and consistent efforts and we will discover that everything will fall in its right place. We must try and strive for something only then we will succeed in achieving out goals.

Thank for Reading...

Lakshman Kumar Sinha,

College: RCASC, MBA Department

Batch: 2013-2015

## My Memories

One of the most interesting stages in Life that gives us an opportunity to explore is the 'College Phase'. My entry into 'Ramaiah College' was an important event in my Life. I felt very much excited on the very first day. This Golden period at my college, better equipped me for all the challenges I'll have to face in life and created a strong foundation of knowledge. My college days are unforgettable & it was a time of dreams and innumerable paths.

The best thing about the college was my dear Lecturers & Friends.

My heartfelt Thanks to my Lecturers for being such an inspiration to Me! I found Guidance, Discipline, Friendship and Care in our Lecturers. Tons of Thanks to such wonderful Teachers.

My Friends at college became my Family. They were always there during my Sorrows & Happiness. 3 years of degree life gave me Best Friends for Life time.

One fine day when I see the pictures captured during my College Life I will definitely land up smiling silently. That's the beauty of college life. It stays with us long after we have climbed those ladders of success.

GONNA MISS YOU ALL  
Lasya.S.V (BBA)

## **Most glorious phase of college life**

My experience at RCASC has taught me one fundamental thing – life is unpredictable. It might be good, it might be bad, it might be weird, and it might not interest you, but expect anything to happen. For example, you might have a wonderful job this moment, and be fired the very next moment. College life prepares you for all of this. It is a perfect blend of joy and hardships. You meet different people, you interact with them, and you learn about their cultures and grow as a person

Trust me, once you get into a good college, you will get an opportunity to be the artist you always wanted to be through probably a fine arts campus group. You could be that director, you could be that vocalist, you could be the dancer of your dreams – college is the Santa Claus that keeps on giving all these wonderful opportunities while you're in it. There are also campus festivals, which draw a lot of fun crowd from other colleges and let you show off your skills. You could also enjoy with the celebrities who are invited to perform, or even show off your technical prowess in a tech festival.

So, remember that there will be moments that carry a lot of sentimental value and you can't help but miss those years later. The friendships you make in college life is the most important aspect. These people will give you strength and be your knights in shining armor all your life. Planning road trips, occasional adventure surges, and impulsive journeys—all these things make you more emotional when you bid adieu to the institution. So, one fine day when you see pictures from the college of you and your friends having a good time, you'll definitely land up smiling silently. That's the beauty of college life. It stays with you long after you've climbed those ladders of success and forgotten the name of that cute crush you used to drool over.

## MY EXPERIENCE OF COLLEGE LIFE

My entry into M S Ramaiah college, after I had completed my PU education (Deeksha College) was an important event in life. I was very excited on the first day. I found that there is a great difference between PU and degree life. The world of the PU, school is narrow and limited. The world of Degree College is large.

Most of the teachers in a college live in the world of ideas and books. We have students of all kinds in a college. They discuss the current affairs, art, cinema and sports. Some of them neglect text books but they do not miss the daily newspaper or the running commentary of a cricket match going in some part of the world. There is a lot of freedom in the college but in PU I was busy from the first period to the last. I and my friends attend classes for three or four periods but effectively.

Degree life has given a lot of awareness about life. I have also got good grounding in management. The fests conducted in Ramaiah college were good and we experienced and learnt has well. We even won many prizes in the college and these fests helped us to know more about the management skills to be adapted in daily life. I like the college life for its freedom, intellectual awakening and its various academic and extracurricular activities. I think that even after completing my education, I shall never forget the happy days I spent in the Ramaiah college. I would like to thank all my lecturers for their great support and motivation at times. Thanks to one and all for being with us for these 3 years.

**Chandana G**

BBA

## Success is a Duty

Business has always been a persuasion towards fulfilling goals and this has motivated immensely for further raising my targets.

Currently I am running an HP Gas Agency in Virajpet, Coorg District, Karnataka and also a partner in V P Roof Industries which deals with manufacturing of Roofing Sheets. My newest venture is in the Hotel Industry and the upcoming Resort is scheduled to launch in December 2019.

The Specialisation which I opted was in Finance and Marketing during my MBA tenure as I was mainly interested in this field of work. The results were also favourable to me as I passed every semester in Distinction. The college even honoured me as the Best Outgoing Student Award which according to me is the biggest achievement till date.

Hardwork really pays off and I always carry a moto "Success is a Duty" which is the greatest motivation for me in achieving the desired goals.
