## Report on Health Checkup Camp

Department of Chemistry/Biochemistry in association with NSS & YRC arranged a health checkup camp on 7<sup>th</sup> April 2022 on occasion of world Health Day. The health checkup was collaborated with NSS&YRC in association with Kempgowda medical services Trust (Millennium Blood Bank) the health check camp was open for all students, faculty and Non-Teaching staff, and was arranged in 5<sup>th</sup> level of M S Ramaiah College of Arts Science and Commerce Degree college.

The event was inaugurated by Principal Dr.A Nagarathna by watering the plants, followed by HODs of various department of M S Ramaiah College of Arts science and Commerce.

Each year for this date, a theme is chosen that highlights an area of priority concern for WHO. In the face of the current pandemic, a polluted planet, and an increasing incidence of diseases, the theme for World Health Day 2022 is **Our Planet, Our Health**. This call from PAHO, the WHO, and partners, presents a unique opportunity for a green and healthy recovery from the COVID-19 pandemic, that puts the health of individuals and the planet at the center of actions and fosters a movement to create societies focused on well-being.

Air pollution, contaminated water, inadequate sanitation including solid waste management, risks related to certain hazardous chemicals, and negative impacts of climate change are the most pressing environmental public health threats in the Region. These threats to public health are compounded by weak governance practices and potential inequities in health as well as by limited leadership, expertise, and resources in the health sector.

However, this theme of **Our Planet, Our Health** should be a powerful reminder to us that the resolution of many of these issues are beyond the exclusive purview of the health sector and, as a consequence, an effective response will demand whole- of- government and whole- of- society approaches.

Keeping the World Health Day 2022 theme of **Our Planet, Our Health**, Department of Chemistry/Biochemistry of M S Ramaiah College Of Arts Science and Commerce organized a Health Checkup camp for students, Faculty, Supporting staff and Non-Teaching Staff.

In the Health Checkup camp following Checkup was done

- Blood Sugar
- Blood Grouping
- BMI
- Blood Pressure

- Blood Sugar

A blood sugar level **less than 140 mg/dL (7.8 mmol/L) is normal**. A reading of more than 200 mg/dL (11.1 mmol/L) after two hours indicates diabetes. A reading between 140 and 199 mg/dL (7.8 mmol/L and 11.0 mmol/L) indicates prediabetes

## Blood Pressure Ranges

BLOOD PRESSURE CATEGORY	SYSTOLIC (mm Hg)	DIASTOLIC (mm Hg)
Healthy	less than 120	and less than 80
Elevated	120–129	and less than 80
Stage 1 hypertension	130–139	or 80–89
Stage 2 hypertension	140 or higher	or 90 or higher
Hypertension crisis	over 180	or over 120

Above all basic parameter was covered in Health Checkup Camp. After checkup necessary advice and prescription was given accordingly to who all participated in the camp. It was a very much helpful session for participants.
