Report on IISc Open Day (4th March 2023)

Introduction:

The Indian Institute of Science (IISc) held an open day event on March 4th, 2023, which aimed to provide prospective students and the general public with an opportunity to learn about the institute's academic programs and research activities. This report aims to provide an overview of the event and its activities.

Activities:

The IISc open day event featured a variety of activities, including lab tours, departmental presentations, panel discussions, and interactive exhibits.

Lab Tours:

The lab tours were a highlight of the event, as they provided attendees with a glimpse of the cutting-edge research being conducted at IISc. The tours covered a range of research facilities, including the Centre for Nano Science and Engineering, the Centre for Earth Sciences, and the Centre for Sustainable Technologies. Attendees were able to interact with researchers, ask questions, and gain a better understanding of the research being conducted.

Departmental Presentations:

The departmental presentations provided attendees with an overview of the various academic programs offered by IISc. The presentations were conducted by faculty members and current students, who shared insights into the courses offered, research opportunities, and academic experiences at the institute.

Panel Discussions:

The panel discussions covered a range of topics related to science and technology, providing attendees with valuable insights into the current state and future of these fields. The panels featured experts from academia, industry, and government, who shared their perspectives on topics such as sustainable energy, artificial intelligence, and space exploration.

Interactive Exhibits:

The interactive exhibits provided attendees with a fun and engaging way to learn about various scientific concepts. The exhibits covered topics such as robotics, nanotechnology, and biotechnology. Attendees could participate in hands-on activities and experiments, making the learning experience more engaging and memorable.

Conclusion:

The event provided a unique opportunity for attendees to interact with researchers, faculty members, and current students, and gain a better understanding of the research being conducted at the institute. Overall, the IISc open day event was an excellent showcase of the institute's research and academic programs and inspired attendees to pursue careers in science and technology.
