The morning session began at 10:00 AM with the goal of introducing faculties to the concept of emotional intelligence. The resource person engaged in activities involving risk and stress management during the entire session.

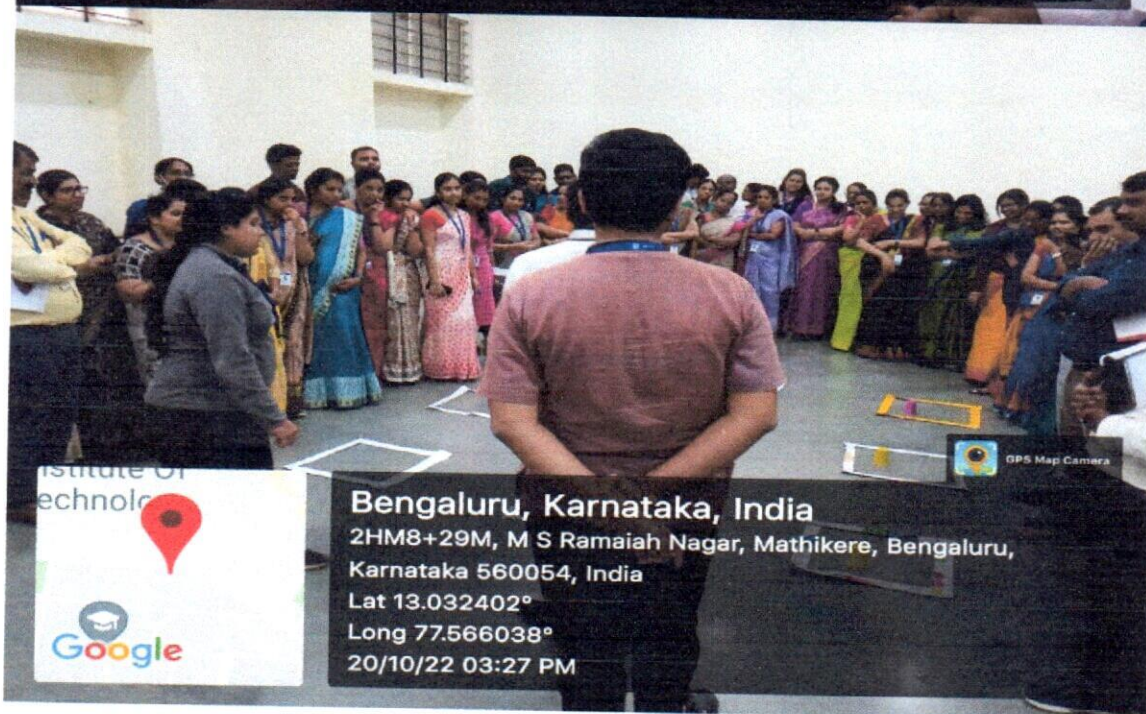

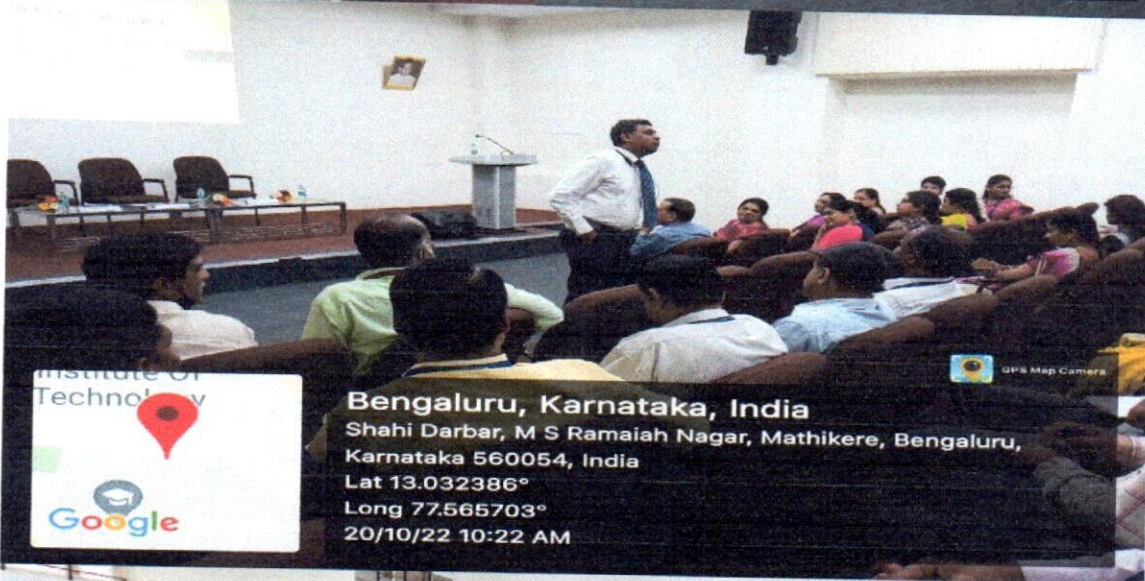

The second session started at 2.00 PM focussing on Four key elements of emotional intelligence i.e., self awareness, self management, social awareness, and social management. Self awareness which involves recognizing the fundamental feelings and being able to distinguish between main, secondary, and emotional effects. The participants were aware of the four essential factors and later went through a few tools to determine one's own emotional intelligence levels and also Blooms taxonomy for higher order learning (L3 to L6) helped faculties to integrate emotional intelligence into daily thinking.
