Report on Industrial Visit to INFOSYS

Title: Industrial Visit

Date: 23rd August 2024

Venue: Infosys, Phase I, Electronic city, Bengaluru

Participants: BCA and BSc students + 2 faculty members

No of Students: 20

Event coordinators: Dr. Prathiba V Kalburgi, R Srividya, Nagalambika Swamy

Objective of Industrial Visit: To give exposure to computer students about Software Industry (Infosys).

Introduction

On August 23, our college students had the incredible opportunity to attend the Infosys Springboard summit at the Infosys campus in Electronic City, Bangalore. With high anticipation and excitement, we set out early in the morning, eager for a day packed with learning, networking, and a glimpse into the future of technology and innovation.

The Journey Begins

We kicked off our journey at 7:30 AM, boarding the college bus with a buzz of excitement and curiosity about what lay ahead. The ride through Bangalore was filled with animated conversations about potential new technologies, influential speakers, and how this experience might shape our future careers.

Upon reaching the venue around 9:00 AM, we were met with warm smiles from the event organizers and fellow students from other colleges. The atmosphere was electric, and we quickly fell into conversations with our peers, all eager to dive into the day's activities.

Registration and Warm Welcome

Our first stop was the registration desk, where we each received a bag brimming with goodies: a book, a pen, a phone holder, and a coffee flask, all engraved with the event's name. These thoughtful gifts not only served as mementos but also lifted our spirits, setting a positive tone for the day.

Exploring the Infosys Campus

With ID cards proudly displayed, we made our way to the main venue. The Infosys campus was nothing short of mesmerizing. The lush greenery, vibrant flowers, and carefully maintained trees created a serene and inviting environment. Wide, clean roads and employees commuting on bicycles added to the campus's eco-friendly charm.

The modern architecture of the buildings blended seamlessly with nature, inspiring awe and fueling our ambitions as we walked through this innovative space.

Upon entering the building, we were greeted with a fantastic spread of food and beverages. It was the perfect way to energize ourselves for the day ahead. After a satisfying meal, we proceeded to the auditorium, excited for the summit to begin.

Opening Session

Thirumala Arohi, the Chief Architect of Infosys, opened the event with an engaging welcome speech. His enthusiasm was contagious, setting an upbeat and motivational tone for the rest of the day.

Showcasing Achievements

We were introduced to the impressive accomplishments of the Infosys Springboard platform, which promotes new-age education through a wide range of courses by renowned global educators. It was inspiring to see how the platform empowers students and prepares them for future challenges.

Keynote by Sunil Kumar Dhareshwar

Sunil Kumar Dhareshwar, Infosys's Executive Vice President, took the stage to recount the Springboard platform's journey from its inception in 2021 to today. His insights into the platform's growth and its impact on global education were both enlightening and motivating, highlighting the importance of innovation and adaptability.

Felicitations Award Ceremony

The excitement in the auditorium reached a peak during the "20 Under 20: The Impact Makers" felicitations. Seeing young achievers celebrated for their significant contributions was incredibly inspiring. Their stories of innovation and perseverance reminded us of the power of youth in driving change.

Lunch Break

Afternoon Sessions

In the afternoon, Mr. Sumit Virmani spoke about the critical role of upskilling in shaping India's future. His talk underscored the necessity of continuous learning and adaptation in today's fast-paced world. Other dignitaries echoed this sentiment, sharing how their own success was driven by a commitment to lifelong learning and curiosity.

Exploring the Stalls

Outside the auditorium, we explored various stalls showcasing new-age digital tools and technologies. One standout was a CPR demonstration, which was both informative and practical. The stall representatives were enthusiastic and eager to share their knowledge, making the experience both educational and enjoyable.

Moments with Industry Leaders

One of the day's most memorable moments was hearing from Mr. Nandan Nilekani, the visionary behind NEFT and IMPS. His humble demeanor and deep knowledge left us in awe. His emphasis on staying current with new knowledge and continuous learning was particularly impactful.

Just when we thought the day couldn't get any better, Dr. Pramod Varma, former Chief Architect of Aadhaar and UPI, spoke. His warmth and the story of returning to Infosys, his first employer, as a speaker were deeply motivating, illustrating the possibilities that come from dedication and lifelong learning.

Quiz and Closing Activities

We rounded off the day with a quiz hosted by Infosys, testing our knowledge of the summit and the Springboard platform. It was a fun and engaging way to recap what we had learned.

As the day came to a close, we enjoyed a final round of snacks and took the chance to revisit the stalls. With the sun setting, the campus took on a beautiful, serene quality. Despite being tired, our spirits were high as we explored further and captured some memorable photos.

we arrived back on campus, exhausted but thrilled and eager for future opportunities.

Conclusion

In closing, we would like to extend our heartfelt thanks to our college for providing us with such invaluable opportunities. The Infosys Springboard summit was a transformative experience that has set a positive tone for our future in the IT industry. These opportunities broaden our horizons and inspire us to strive for excellence and innovation in our careers. We are deeply grateful for the support and encouragement from our college, which helps shape our ambitions and prepares us for the challenges ahead.
