## CIRCULAR

The Department of Biotechnology and Genetics is organising Biofest - 2024 under the aegis of Biotitans (Biotechnology and Genetics Club) for all the three years of B.Sc Lifescience students on 15<sup>th</sup> Oct 2024. The events for the club activity are Bio-waste Art and Treasure Hunt. The venue for the event is Biotechnology lab and Genetics lab.

**Department of Biotechnology and Genetics****BioTitans Club Activity,****Biofest - 15<sup>th</sup> October 2024****Report****Date:** 15 October 2024**Time:** 10.30 am– 4.30 pm**Venue:** Biotechnology and Genetics Lab**Organizer:** Dept. of Biotechnology and Genetics**Objective:**

1. To ignite creative instincts and scientific curiosity in students.
2. To create awareness on environmental issues and waste management.
3. To encourage team work in life science students.

**Outcome:** The activities encouraged the inquisitive nature of students and created environmental awareness.**Number of participants:** B.Sc Life science students of all three years – 150 students.**Event Coordinators:** Dr. Vinutha M, Dr. Geetika Pant and Dr. Pavithra H G

The Department of Biotechnology and Genetics organised Club activity Biofest under the aegis of "Biotitans" on 15<sup>th</sup> October 2024. The event was filled with creativity, intellect, and teamwork from all the three years of B.Sc. life science students. An overwhelming response was received from the students resulting in overall 51 team registrations for the events. Under the overarching theme of resourcefulness and innovation, the fest comprised two major events: "Biowaste Art" and "Treasure Hunt". These activities not only challenged students creative instincts but also celebrated environmental consciousness and scientific curiosity.

The Biowaste Art competition, held in the Genetics lab, set the tone for a truly engaging experience. Eight enthusiastic teams registered, each given 1.5 hours to craft a piece of art using bio waste materials.

Participants unleashed their creativity with resources like vegetable peels, coconut shells, and other natural waste products, turning everyday organic matter into stunning artistic expressions.

Teachers and dedicated volunteers closely monitored the event, ensuring a smooth and lively environment. Our interdepartmental judges Dr. Prasanna Srinivas, HOD (PG), Department of Microbiology and Mrs. Malini R, Assistant Professor, Department of Biochemistry/ Chemistry evaluated the artistic creations of participants.

Simultaneously, the Treasure Hunt offered a thrilling test of teamwork and knowledge. With an impressive 43 teams registering, eager to take on the challenge. The hunt spanned the Biotechnology and Genetics labs, where hidden clues awaited discovery. Volunteers, equipped with excitement and dedication, managed the entire event, from start to finish. They also meticulously crafted the hints, which were cleverly based on lab instruments and equipment, adding a scientific twist to each clue.

Event coordinators, Dr. Vinutha M, Dr. Geetika Pant, and Dr. Pavithra H G, supervised the event and ensured everything proceeded seamlessly.

This exhilarating fest celebrated the spirit of innovation, collaboration, and environmental awareness, leaving students with memories of a truly extraordinary experience.
