

## **GENDER SENSITIZATION ACTION PLAN 2023-24**

The Equal Opportunity Cell and Women's Cell actively contribute to fostering awareness and disseminating information among faculty and students on issues related to gender discrimination. Each year, these cells organize events and programs to educate the academic community about their rights and responsibilities, as enshrined in the Constitution of India. Renowned guest speakers from diverse fields are invited to share their expertise and insights.

For the current academic year, the Equal Opportunity Cell has scheduled two impactful programs, while the Women's Cell plans to conduct three engaging initiatives. Together, these efforts aim to promote gender sensitization, inclusivity, and an equitable campus environment.
