Newsletter

Welcome to M.S. Ramaiah College of Arts, Science, and Commerce, Bengaluru, an institution committed to academic excellence and holistic student development. At MSRCASC, we believe education extends beyond textbooks. Our campus is equipped with state-of-the-art infrastructure, including advanced laboratories and smart classrooms that enhance learning experiences. Our dedicated and highly qualified faculty provide invaluable support in all academic, co-curricular, and extra-

Curricular initiatives.

We understand the dynamic needs of the industry and have established strong partnerships with leading industries, research institutions, and corporations. This collaboration enables us to offer our students cutting-edge training, industry-relevant knowledge, and hands-on experiences through workshops, add-on courses, internships, and industrial visits.

Our carefully curated curriculum goes beyond the classroom, focusing on practical skills, soft skills development, and research-based learning to ensure that our students are not just prepared for their careers but are empowered to innovate, lead, and excel in their respective fields. At MSRCASC, we cultivate a culture of curiosity, creativity, and lifelong learning, preparing our students to thrive in a rapidly changing world. Join us and be part of a community that shapes the future!

Message from HOD

Welcome to the Department of Bachelor of Computer Applications (BCA). Our mission is to provide quality education, foster innovation, and nurture talented individuals to become future tech leaders. We strive for excellence in teaching, research, and industry collaboration, ensuring our students are well-equipped to tackle real-world challenges.

Our dedicated faculty and state-of-the-art infrastructure provide a conducive learning environment. We encourage students to participate in extracurricular activities, hackathons, and industry events to enhance their skills and knowledge.

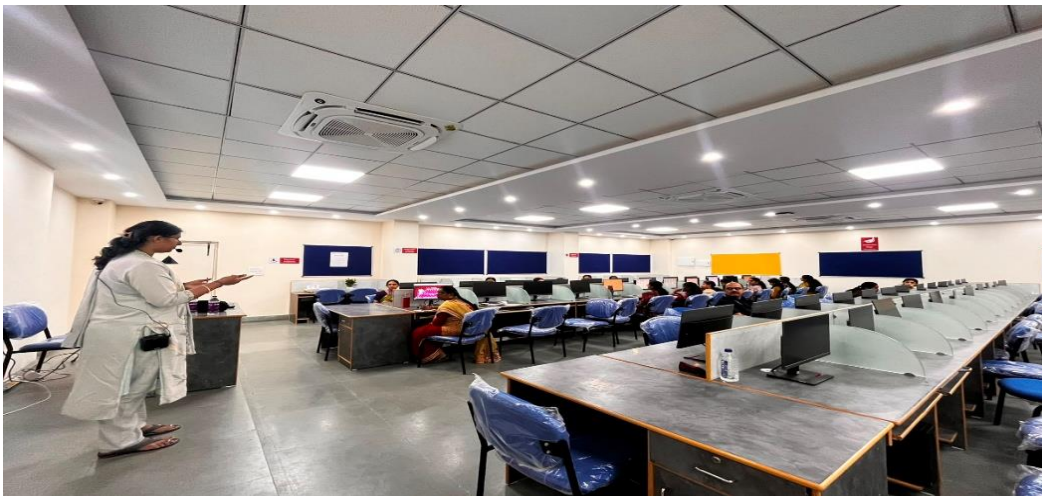

The BCA program is designed to cater to the growing demands of the IT industry, focusing on practical applications, research, and development. Our goal is to produce graduates who are not only technically proficient but also possess strong problem-solving skills.

I invite you to explore our department, engage with our faculty, and take advantage of the opportunities we offer.

Faculty Development Program (FDP) – AI4Educators: From Generative AI to Intelligent Agents

Date: 29th to 6th July 2026

The Department of Computer Applications organized a Faculty Development Program (FDP) titled "AI4Educators: From Generative AI to Intelligent Agents" from 29th June to 6th July 2026. The program aimed to equip faculty members with the latest advancements in Artificial Intelligence and its applications in teaching, learning, research, and academic administration. The sessions covered topics such as Generative AI, prompt engineering, AI-powered teaching tools, intelligent agents, AI ethics, automation and practical demonstrations of AI technologies. The FDP provided participants with hands-on experience, enabling them to integrate AI effectively into their classroom practices, enhance student engagement and improve productivity in academic and research activities.

S

Seminar

Career Guidance

Career Roadmap & Competitive Exam Guidance programme

Date: 5th August 2026

The Department of Computer Applications, Ramaiah College of Arts, Science & Commerce (Autonomous), successfully organized a Career Roadmap & Competitive Exam Guidance programme on 5 August 2026 at 10:30 AM in the Vishveshwaraiah Auditorium. The session was delivered by Mr. Mohan Kumar B. N., Director, Jnanagangothri Coaching Center, who provided valuable insights into career planning, higher education opportunities, and preparation strategies for competitive examinations such as UPSC, KPSC, SSC, Banking, and other government recruitment exams. The programme was presided over by Dr. Prathiba V. Kalburgi, Head of the Department of Computer Applications.

Industrial Visit
Dyashin TechnoSoft

Date: 19th August 2026

An industrial visit by Department of computer applications to Dyashin Technosoft was organized on 19 August 2026 to provide students with practical exposure to the IT industry and Its working environment. Around 48 students visited the company. During the visit, students gained an understanding of software development, modern technologies, project management, and the professional work culture followed in the IT industry. The interaction with the company professionals helped students connect their Academic knowledge with real world applications. The visit helped students understand industry requirements, teamwork, communication, and the importance of continuously developing technical skills. It also provided valuable insights into career opportunities in the software and technology sector.
